

is happy and proud to announce
another event in Bangalore

**From Sunday 21st, 22nd, 23rd
January 2018
at Visthaar, Doddegubbi Post,
Bangalore**

DAY 1

is traditionally the introduction to the Fundamentals of Appreciative Inquiry (AI). Days 2 and 3 are the Confluence, where we delve deep into the practice of AI. The theme this year is the Micro and Macro. We will explore this theme in small and large groups with story telling as the anchoring tool. We invite active practitioners, curious learners, problem solvers, and stakeholders in organisations to participate.

NON-RESIDENTIAL

(for those who wish to attend ONLY Day 1)

DAYS 2 AND 3

Are residential.

ALL 3 DAYS

Could opt for Residential as well.

Email us for more details..

Do grains of sand truly reflect the cosmos?

We have heard the metaphors, the stories, perhaps even the myth. Do the answers to the mysteries of the cosmos truly lie in a handful of sand? There are glimpses of answers, like the Golden Ratio, that appears in the formations of sea shells to galaxies. What if we can find something like it, to solve some of our world's bigger problems?
